NDR / ARTE, rbb, MDR, Terra Mater Factual Studios, Doclights GmbH / NDR Naturfilm

**This film takes the viewer onto a wonderful journey to the youngest inland sea on earth. Even if you think you know the Baltic Sea these stunning pictures will give you completely new insights. This film by Christoph and Almut Hauschild not only tells surprising and emotional wild life stories, but the excellent pictures and narratives also give us an understanding of the natural interrelations in this fragile ecosystem.**
