This clip reveals a sophisticated technique, many years of experience and a very special artistic eye. Supposedly familiar things appear in a new light.

The spectacular fishing of the kingfisher, for example, could be admired many times before, but not in this amazing, previously unattained cinematic quality: the "poetry of the moment" - barely longer than the blink of an eye - becomes an unforgettable, magical moment here.

The **SPECIAL JURY AWARD** for the **BEST CLIP 2022** goes to:

Christian Baumeister!

Congratulations!!!
