

# GREEN SCREEN®

INTERNATIONALES NATURFILMFESTIVAL ECKERNFÖRDE  
14. - 18. SEPTEMBER 2016

## **Laudatio** **Best independent Production**

**"Kangaroo Island - Life on the edge"**

**A Film by: Samuel Chen, Walking Story**

The films of this category have one thing in common: The filmmakers start on their film journey without outward pressure on the choice of subject, the view point, the design and without attention to viewing figures. The winning entry tells the story of a woman who loves her native nature and wants to raise her child's awareness for their environment. This miniature is a metaphor and an appeal to everyone to take careful note of their immediate environment and show it its due respect.
